

Agilent Technologies 10010882  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

1 / 10

Approved  
AC  
11/28/04

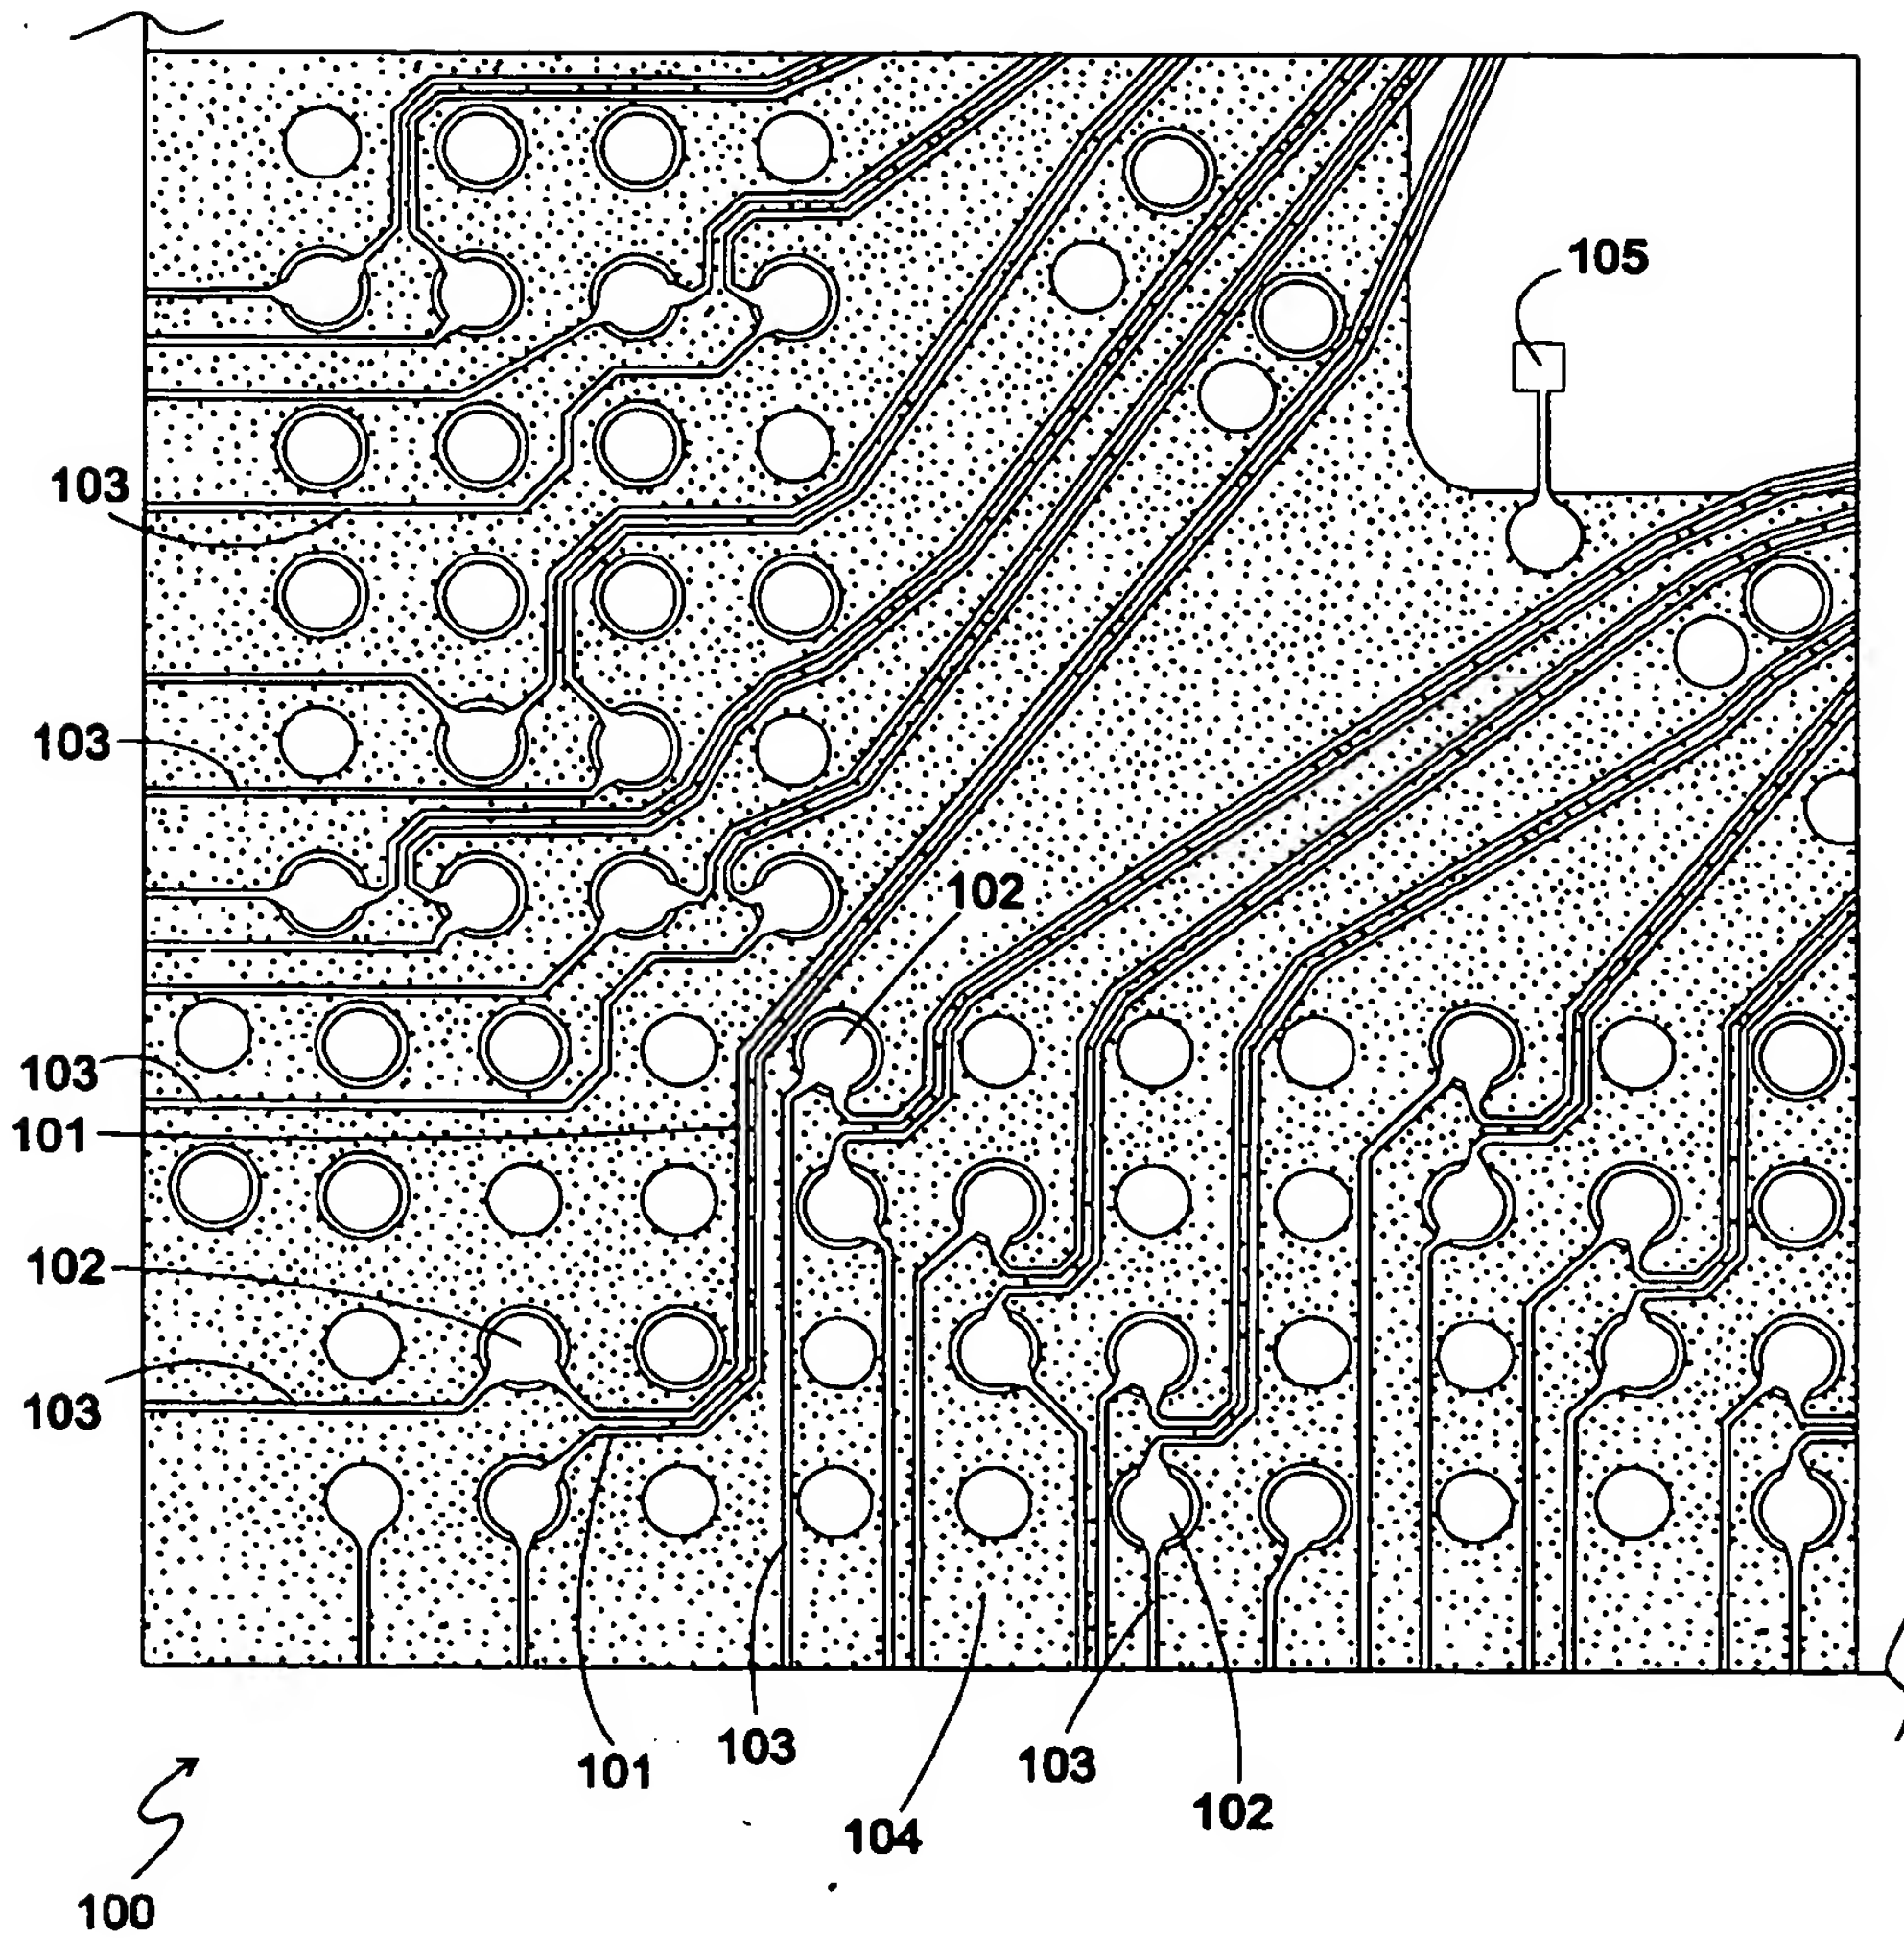

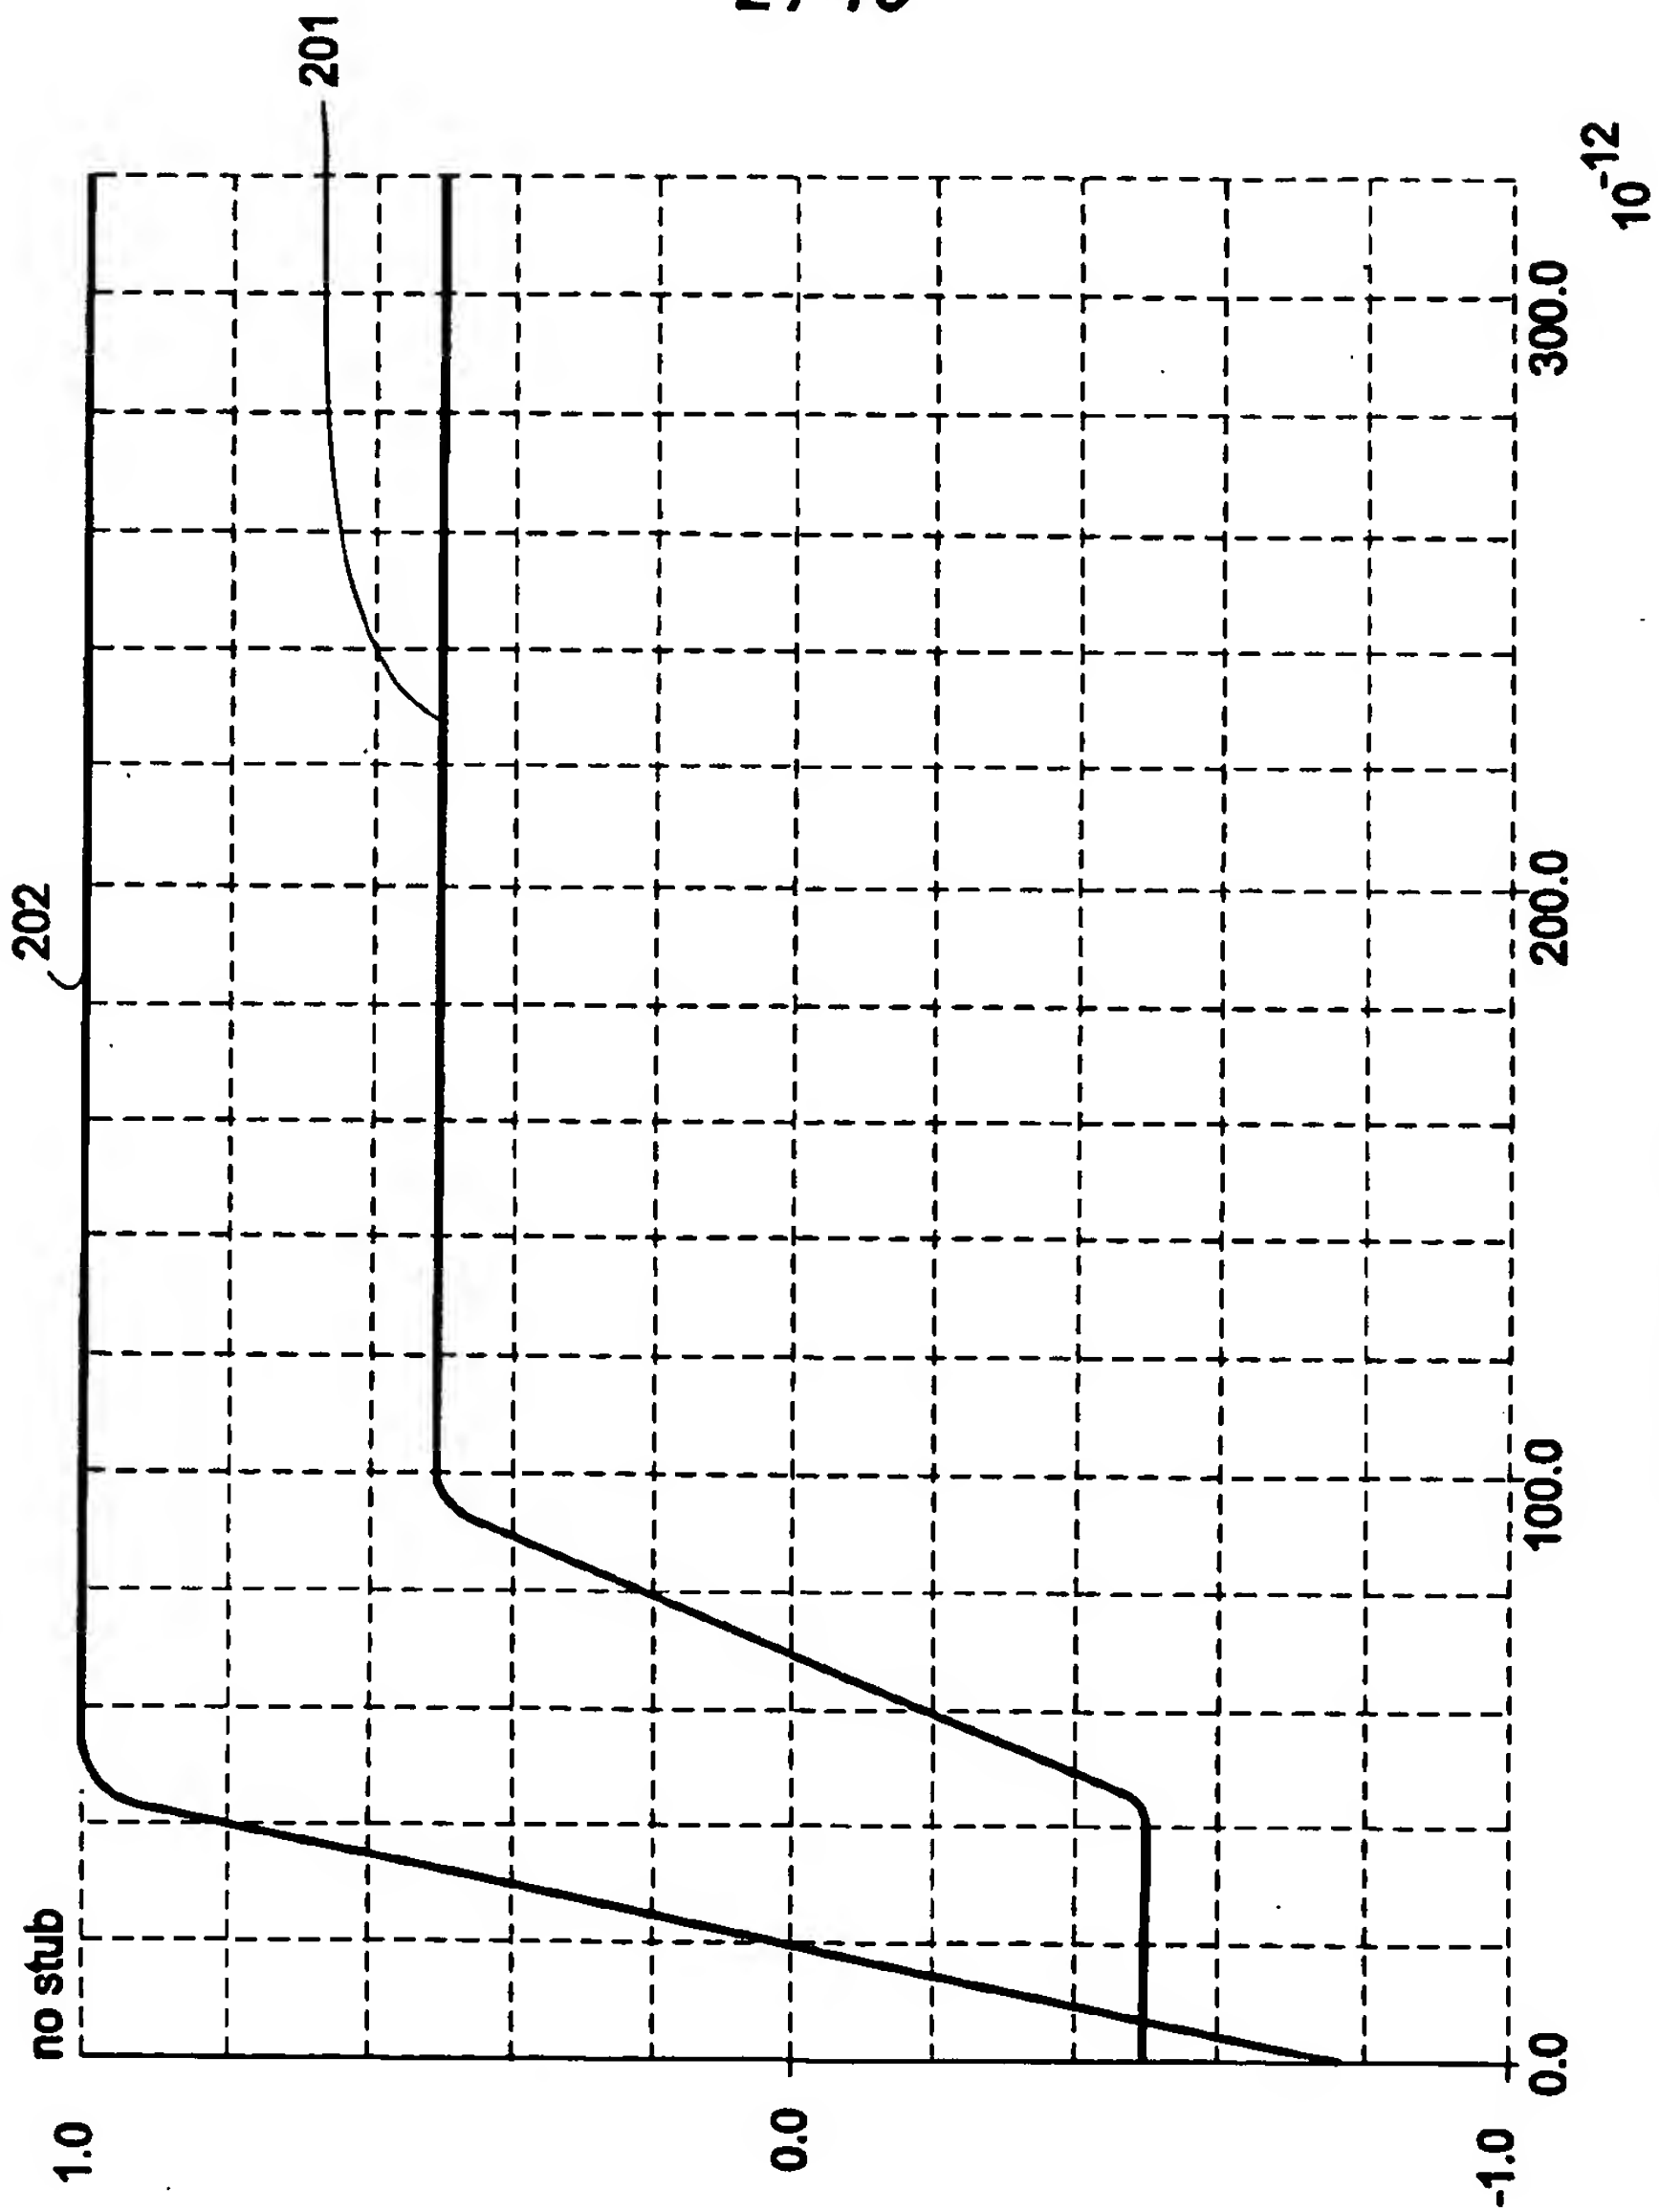

FIG. 1 Prior Art

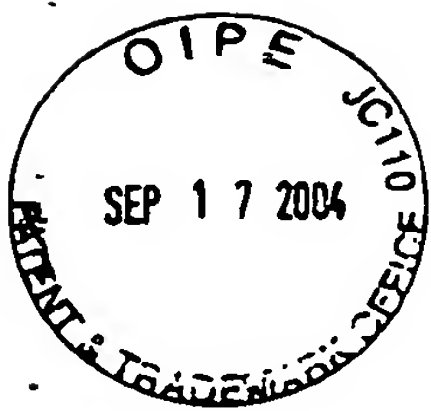

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

2 / 10

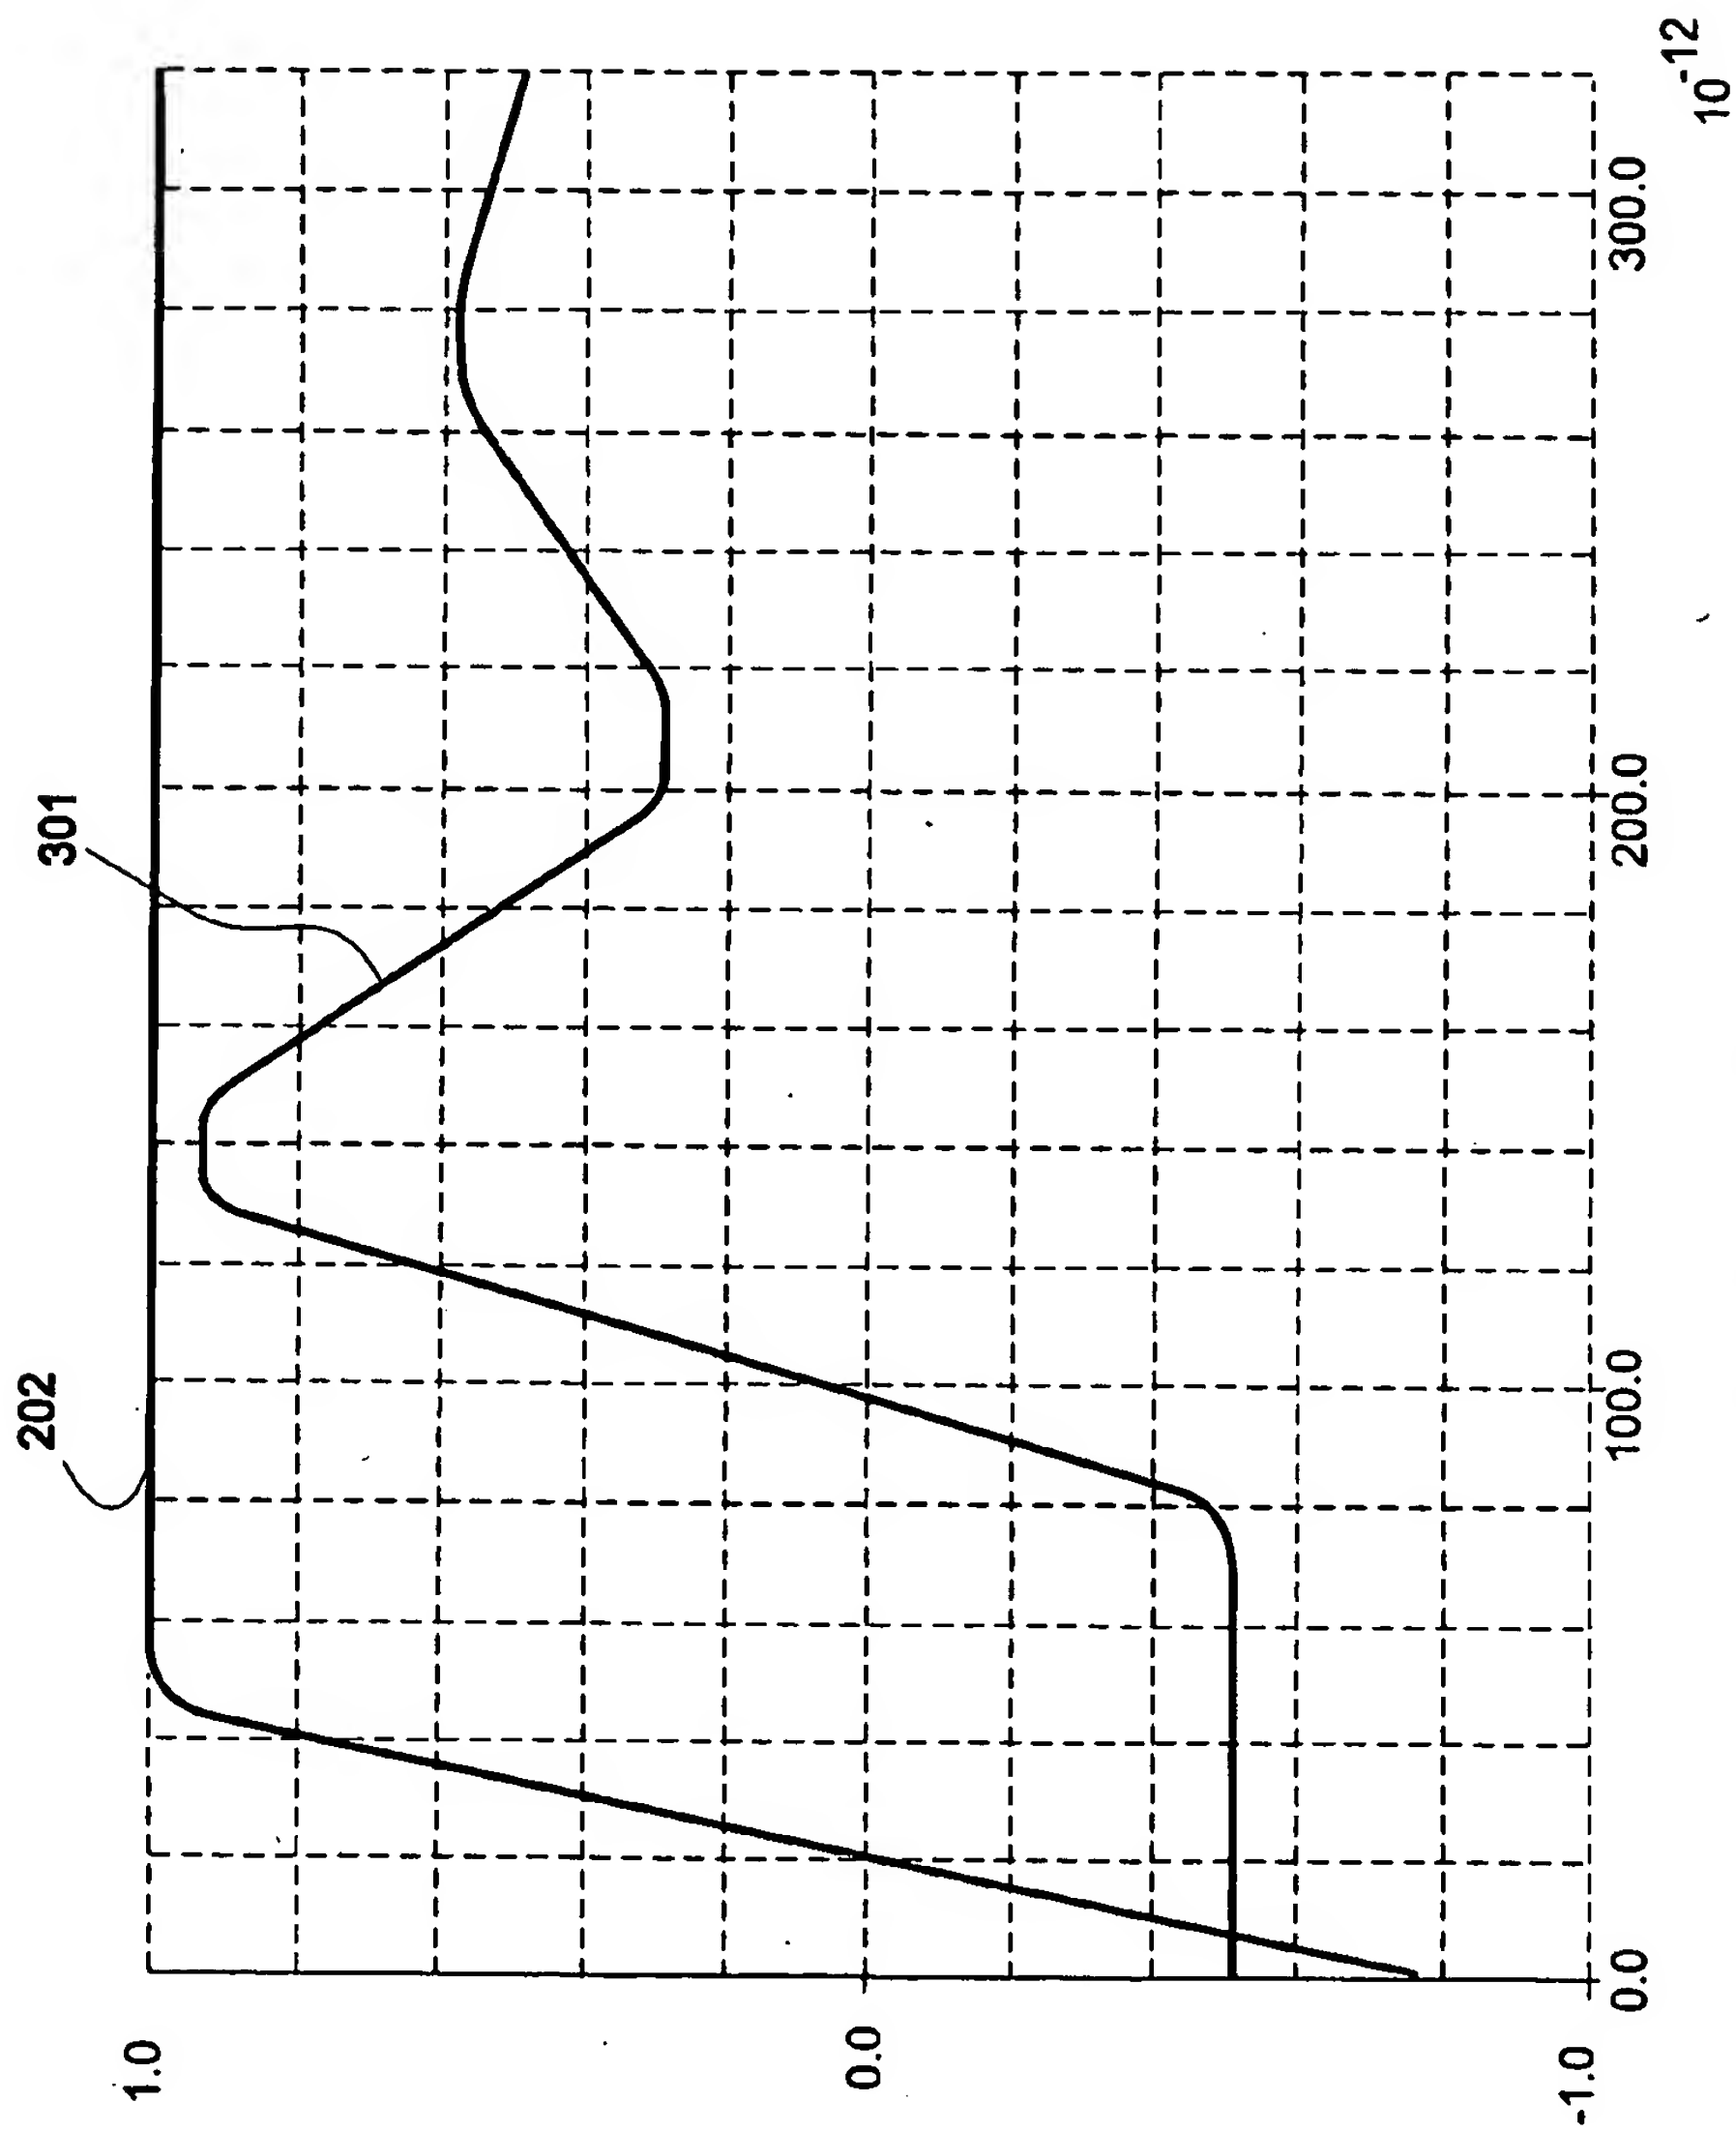

Mod(time-.3n,.32n)  
FIG. 2

Agilent Technologies 10010882  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

3 / 10

Mod(time-3n,32n)

FIG. 3

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

4 / 10

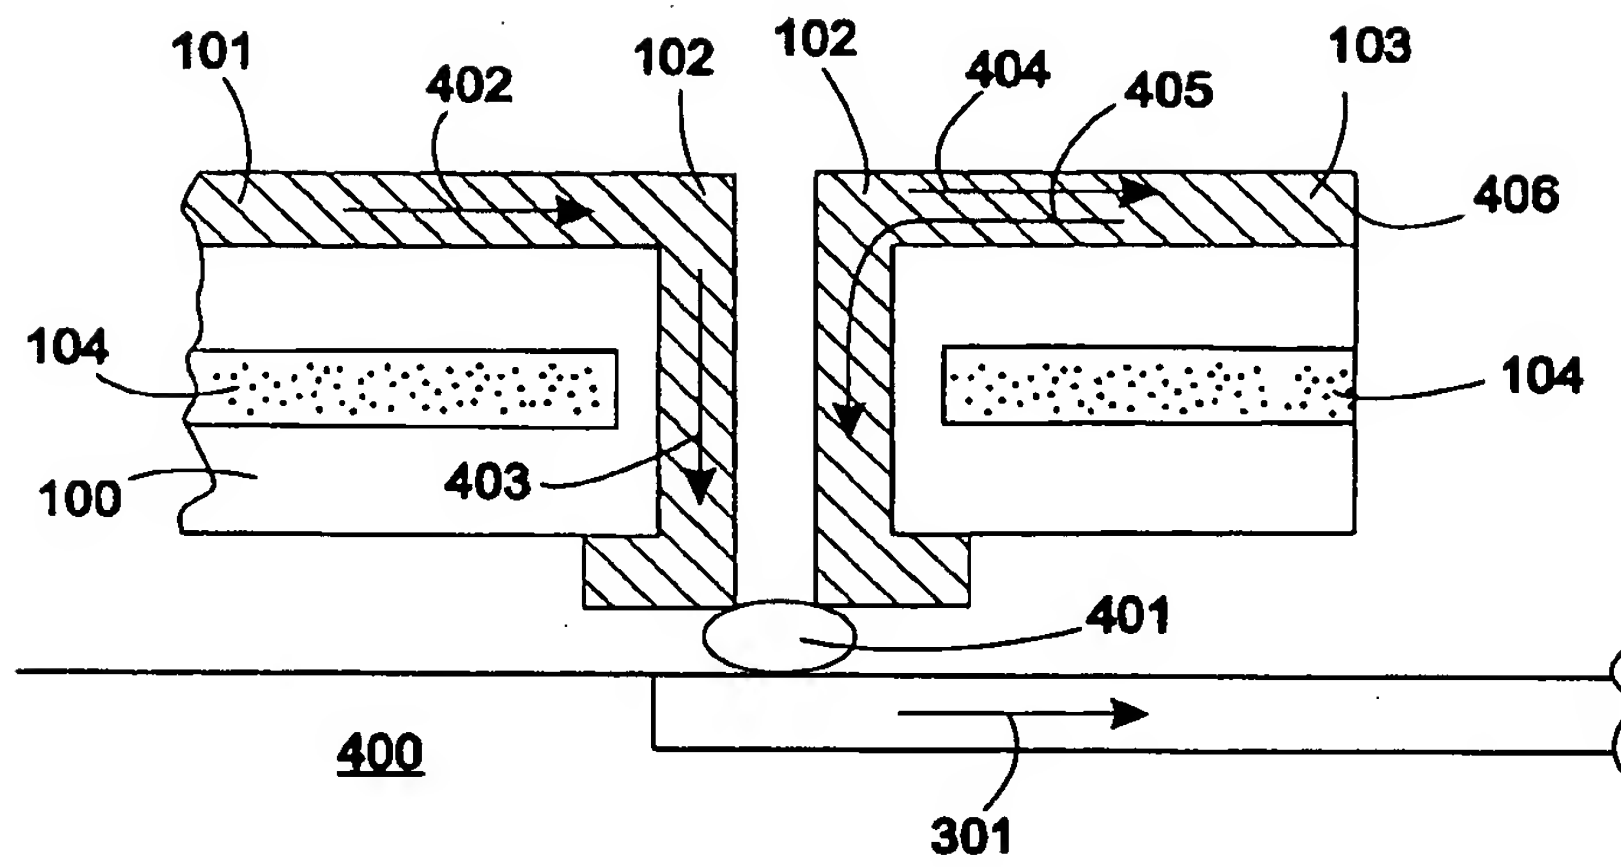

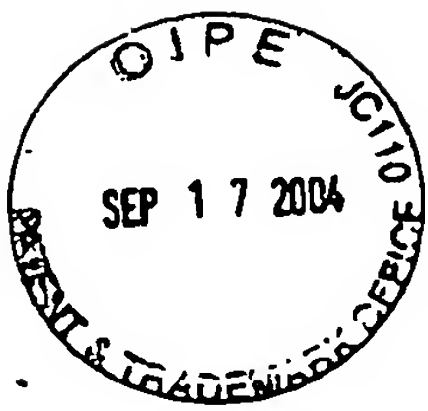

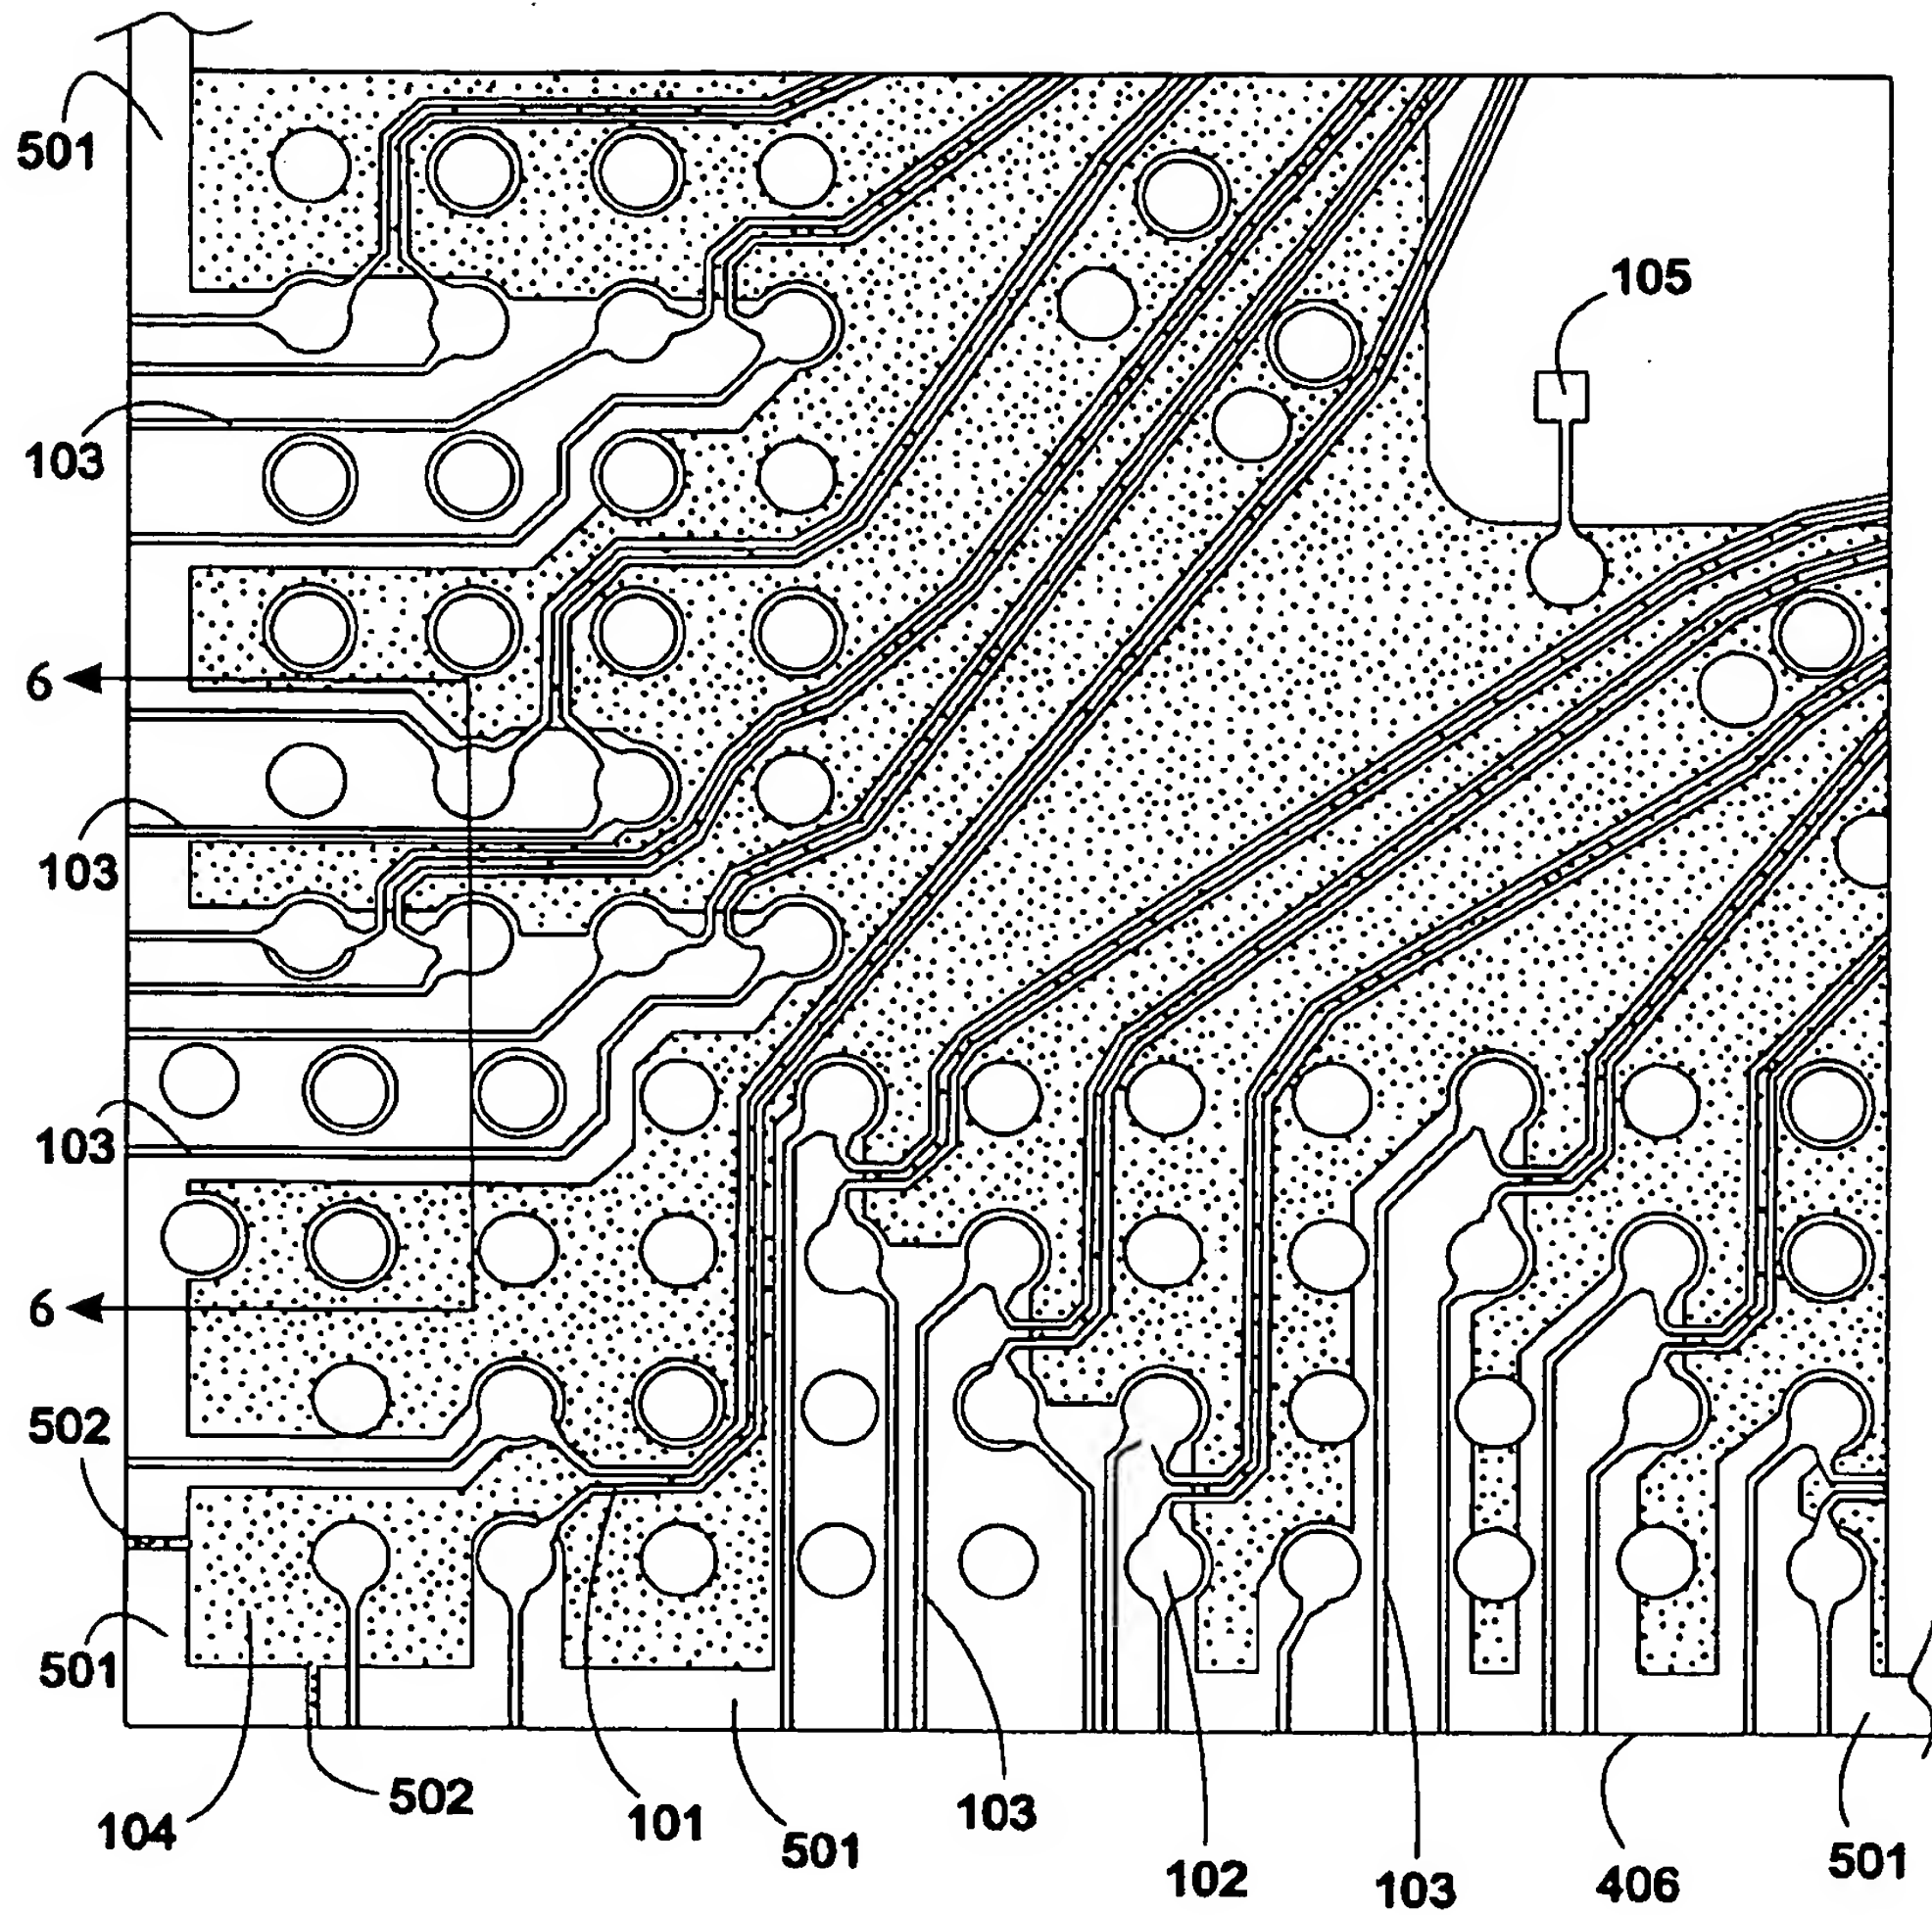

FIG. 4

Agilent Technologies 10010882  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

5 / 10

100

FIG. 5

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

6 / 10

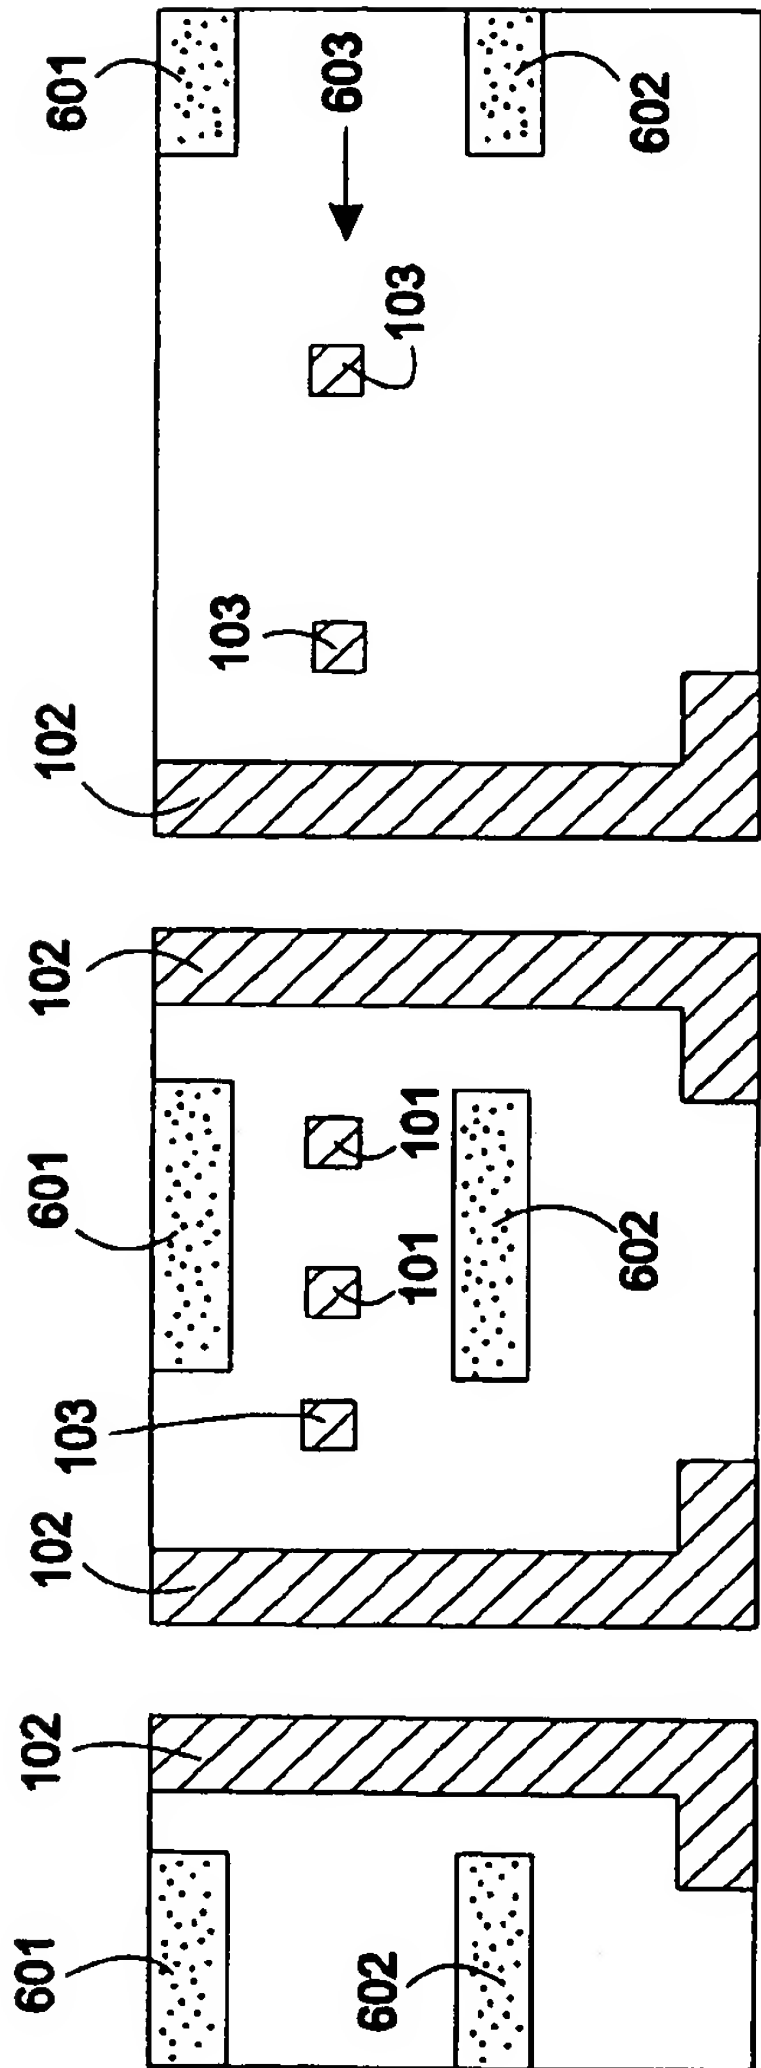

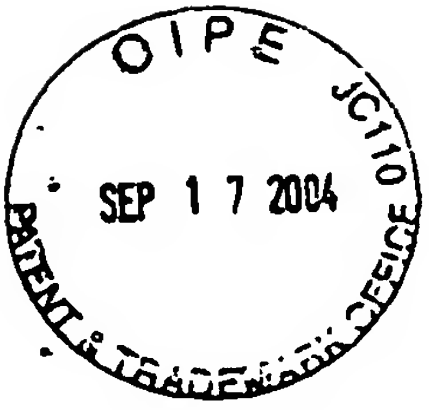

FIG. 6

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

# Replacement Sheet

7 / 10

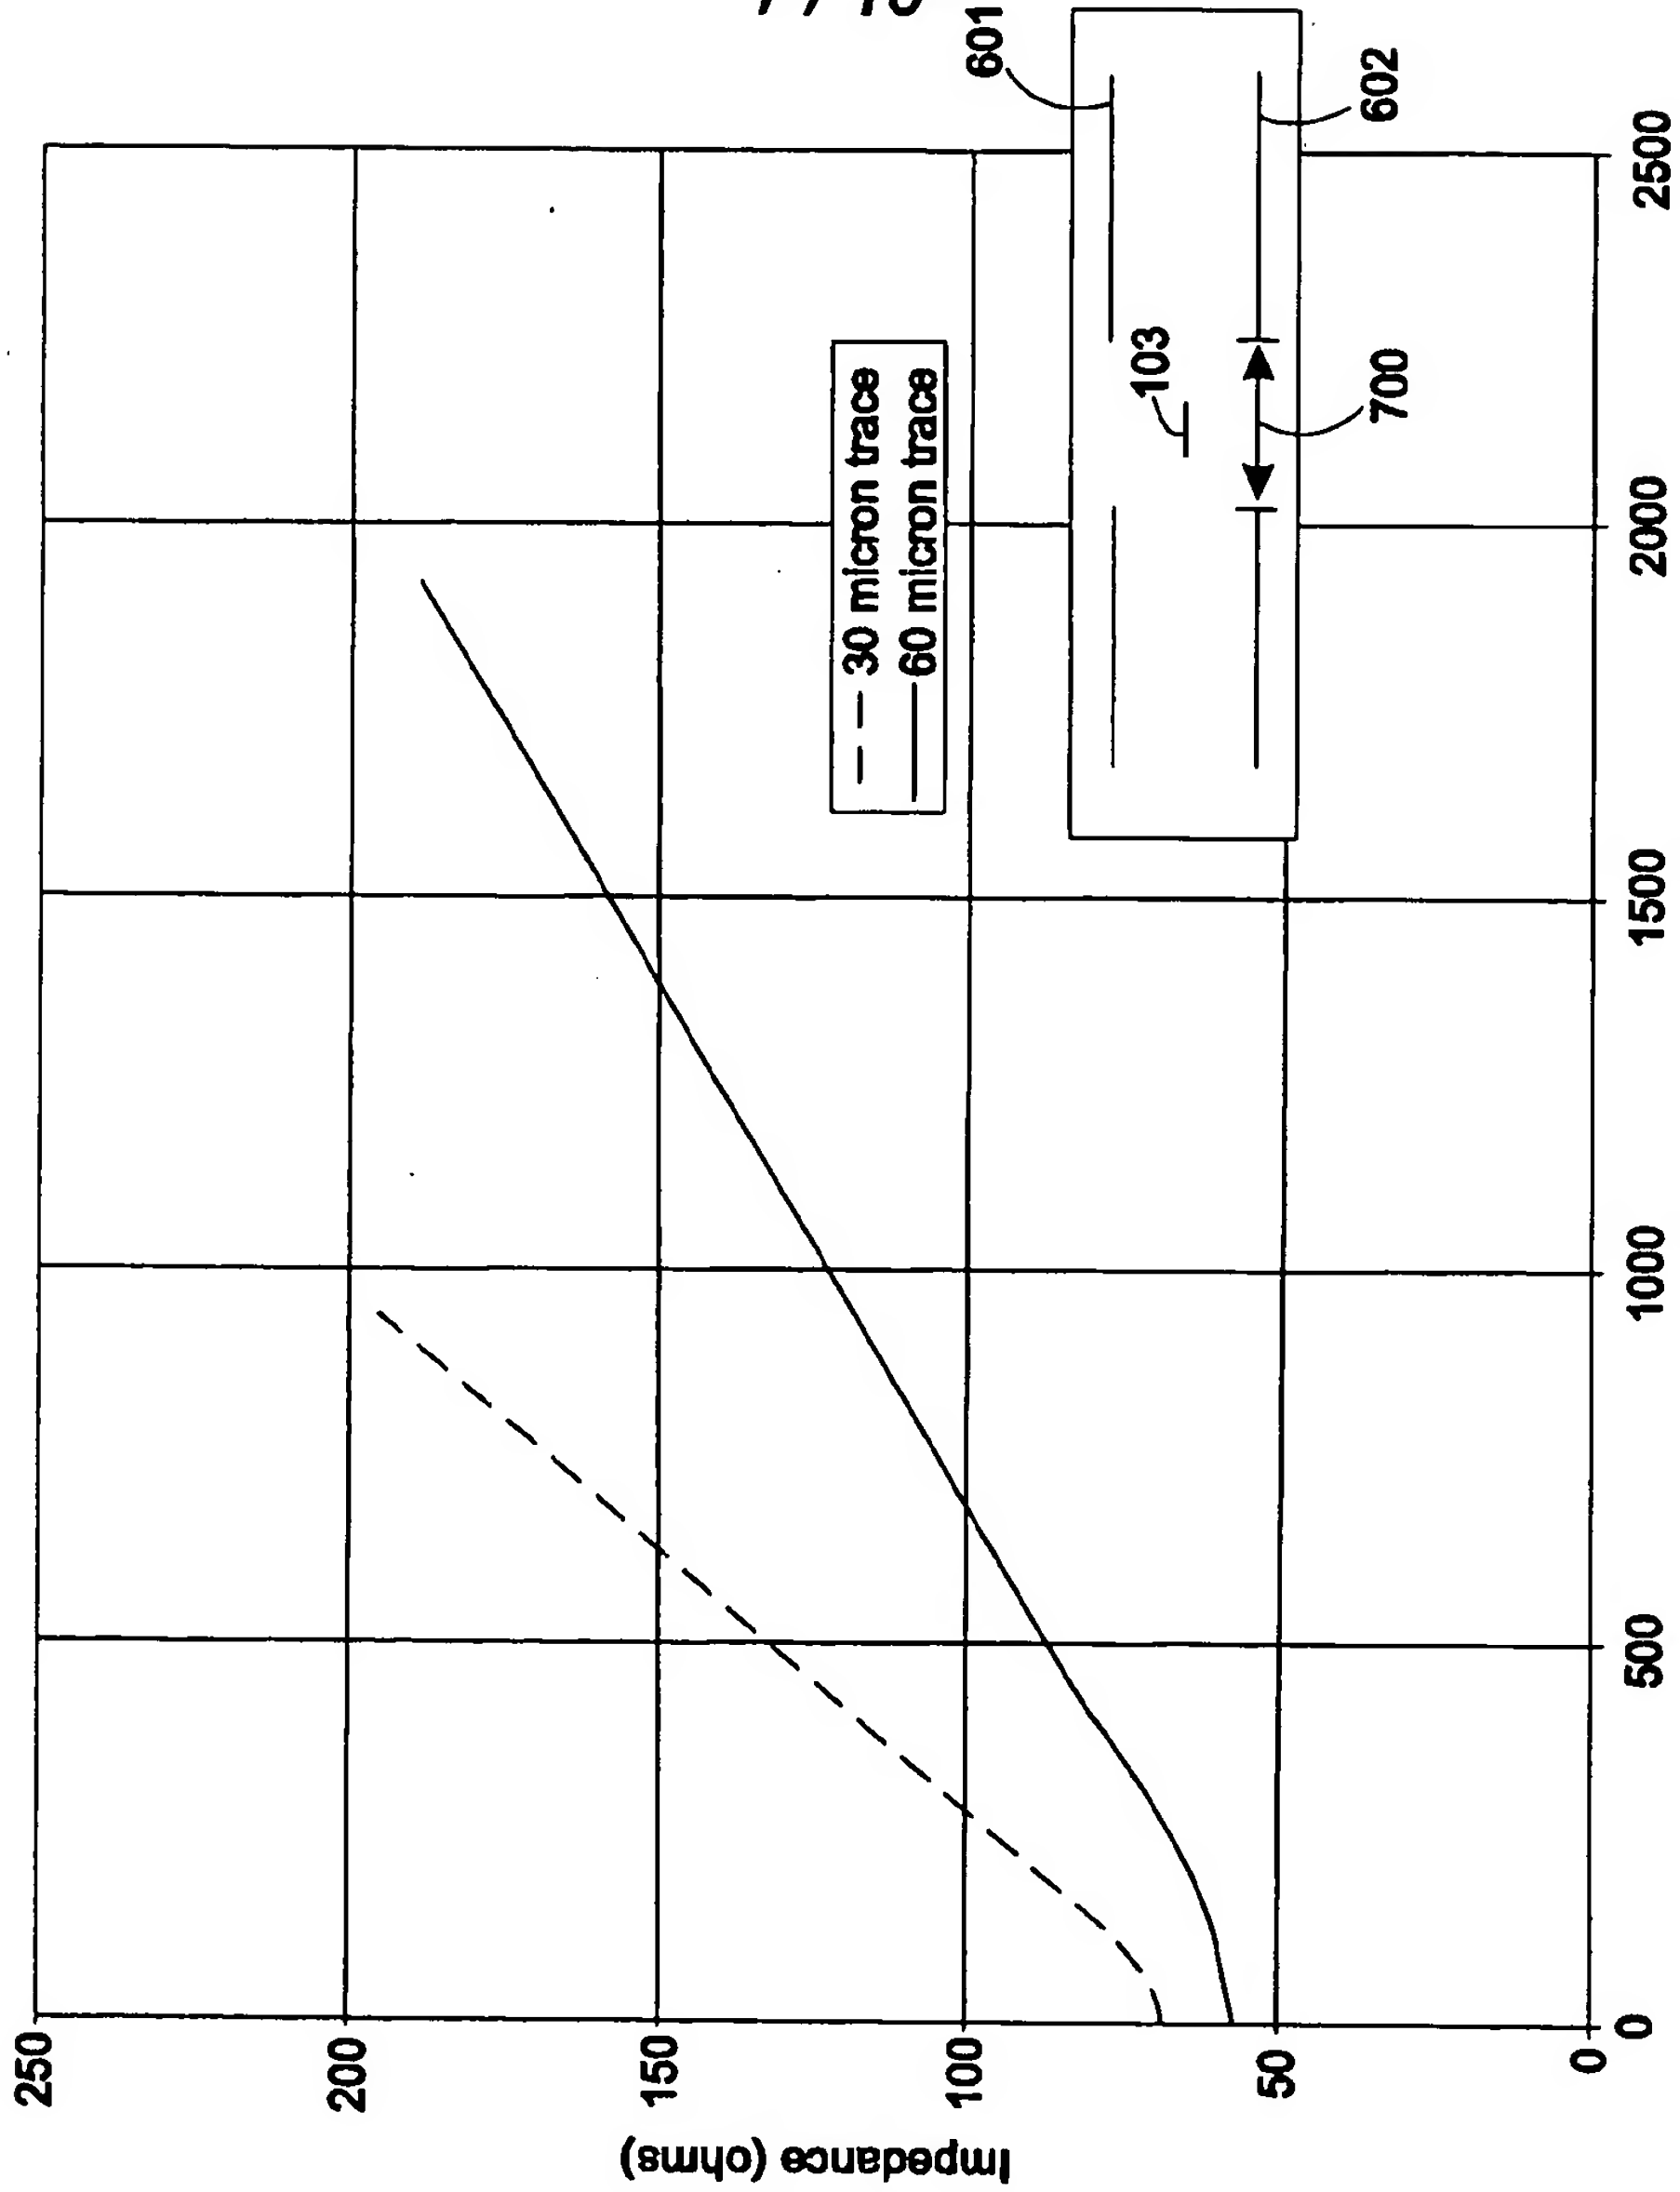

FIG. 7 Gap width above and below trace (microns)

Replacement Sheet

8 / 10

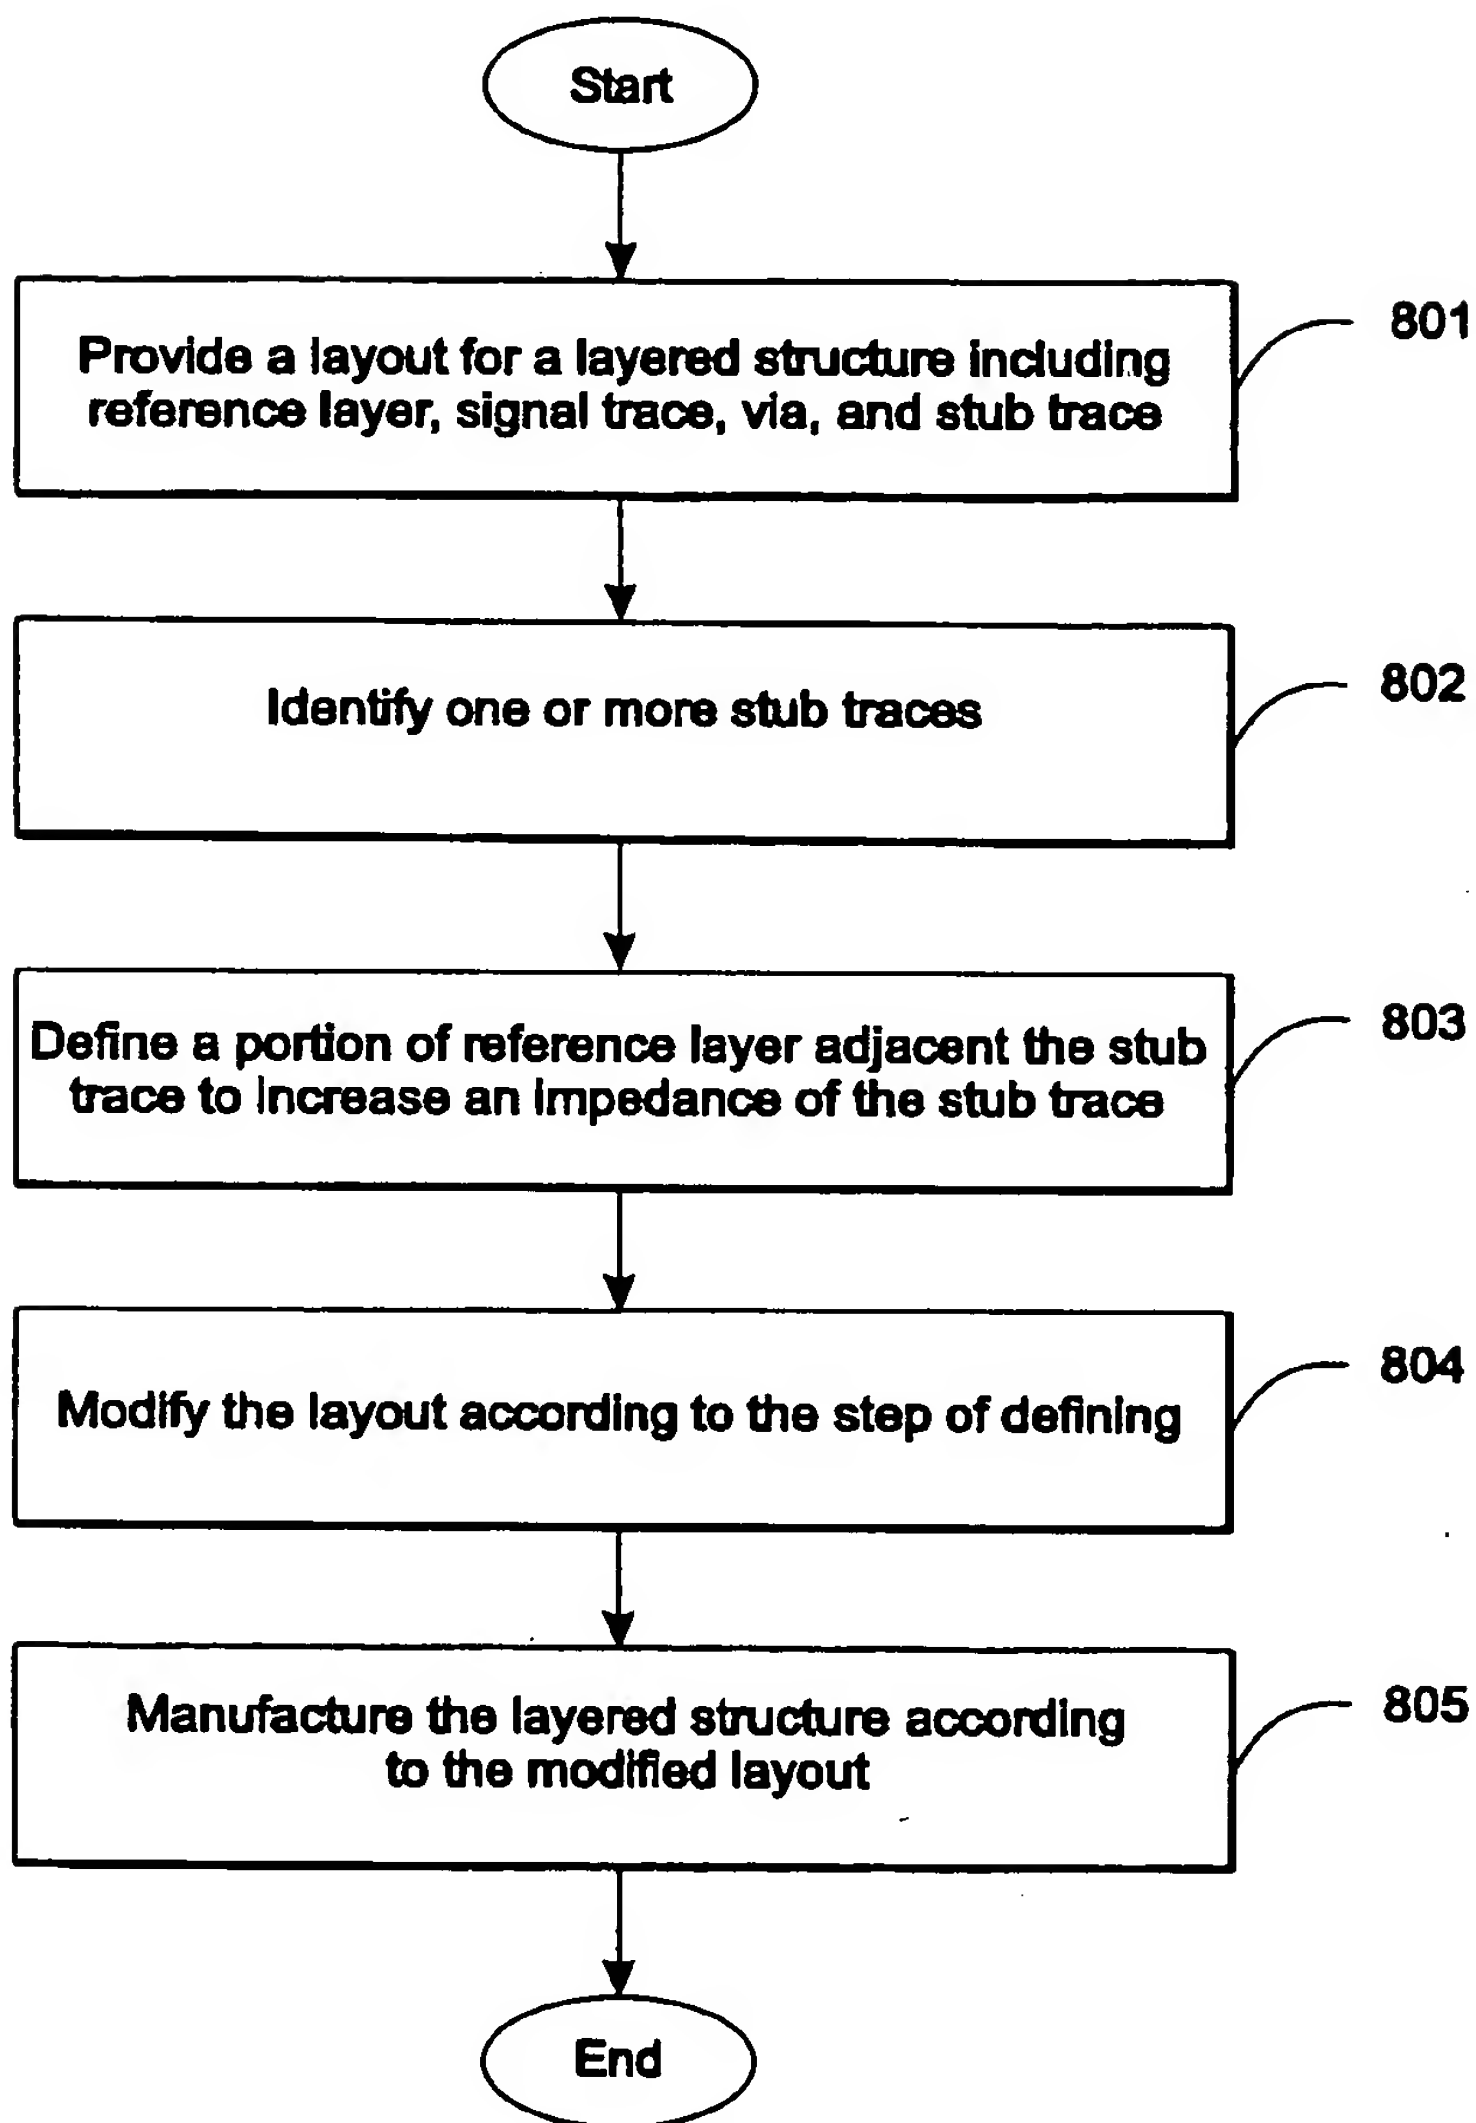

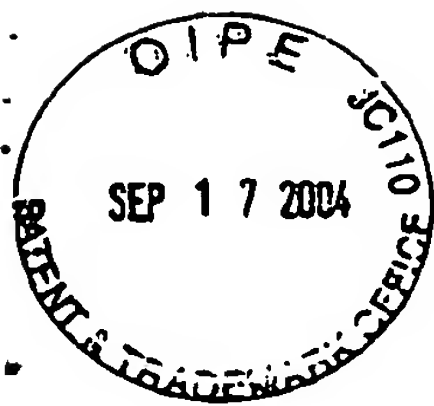

FIG. 8

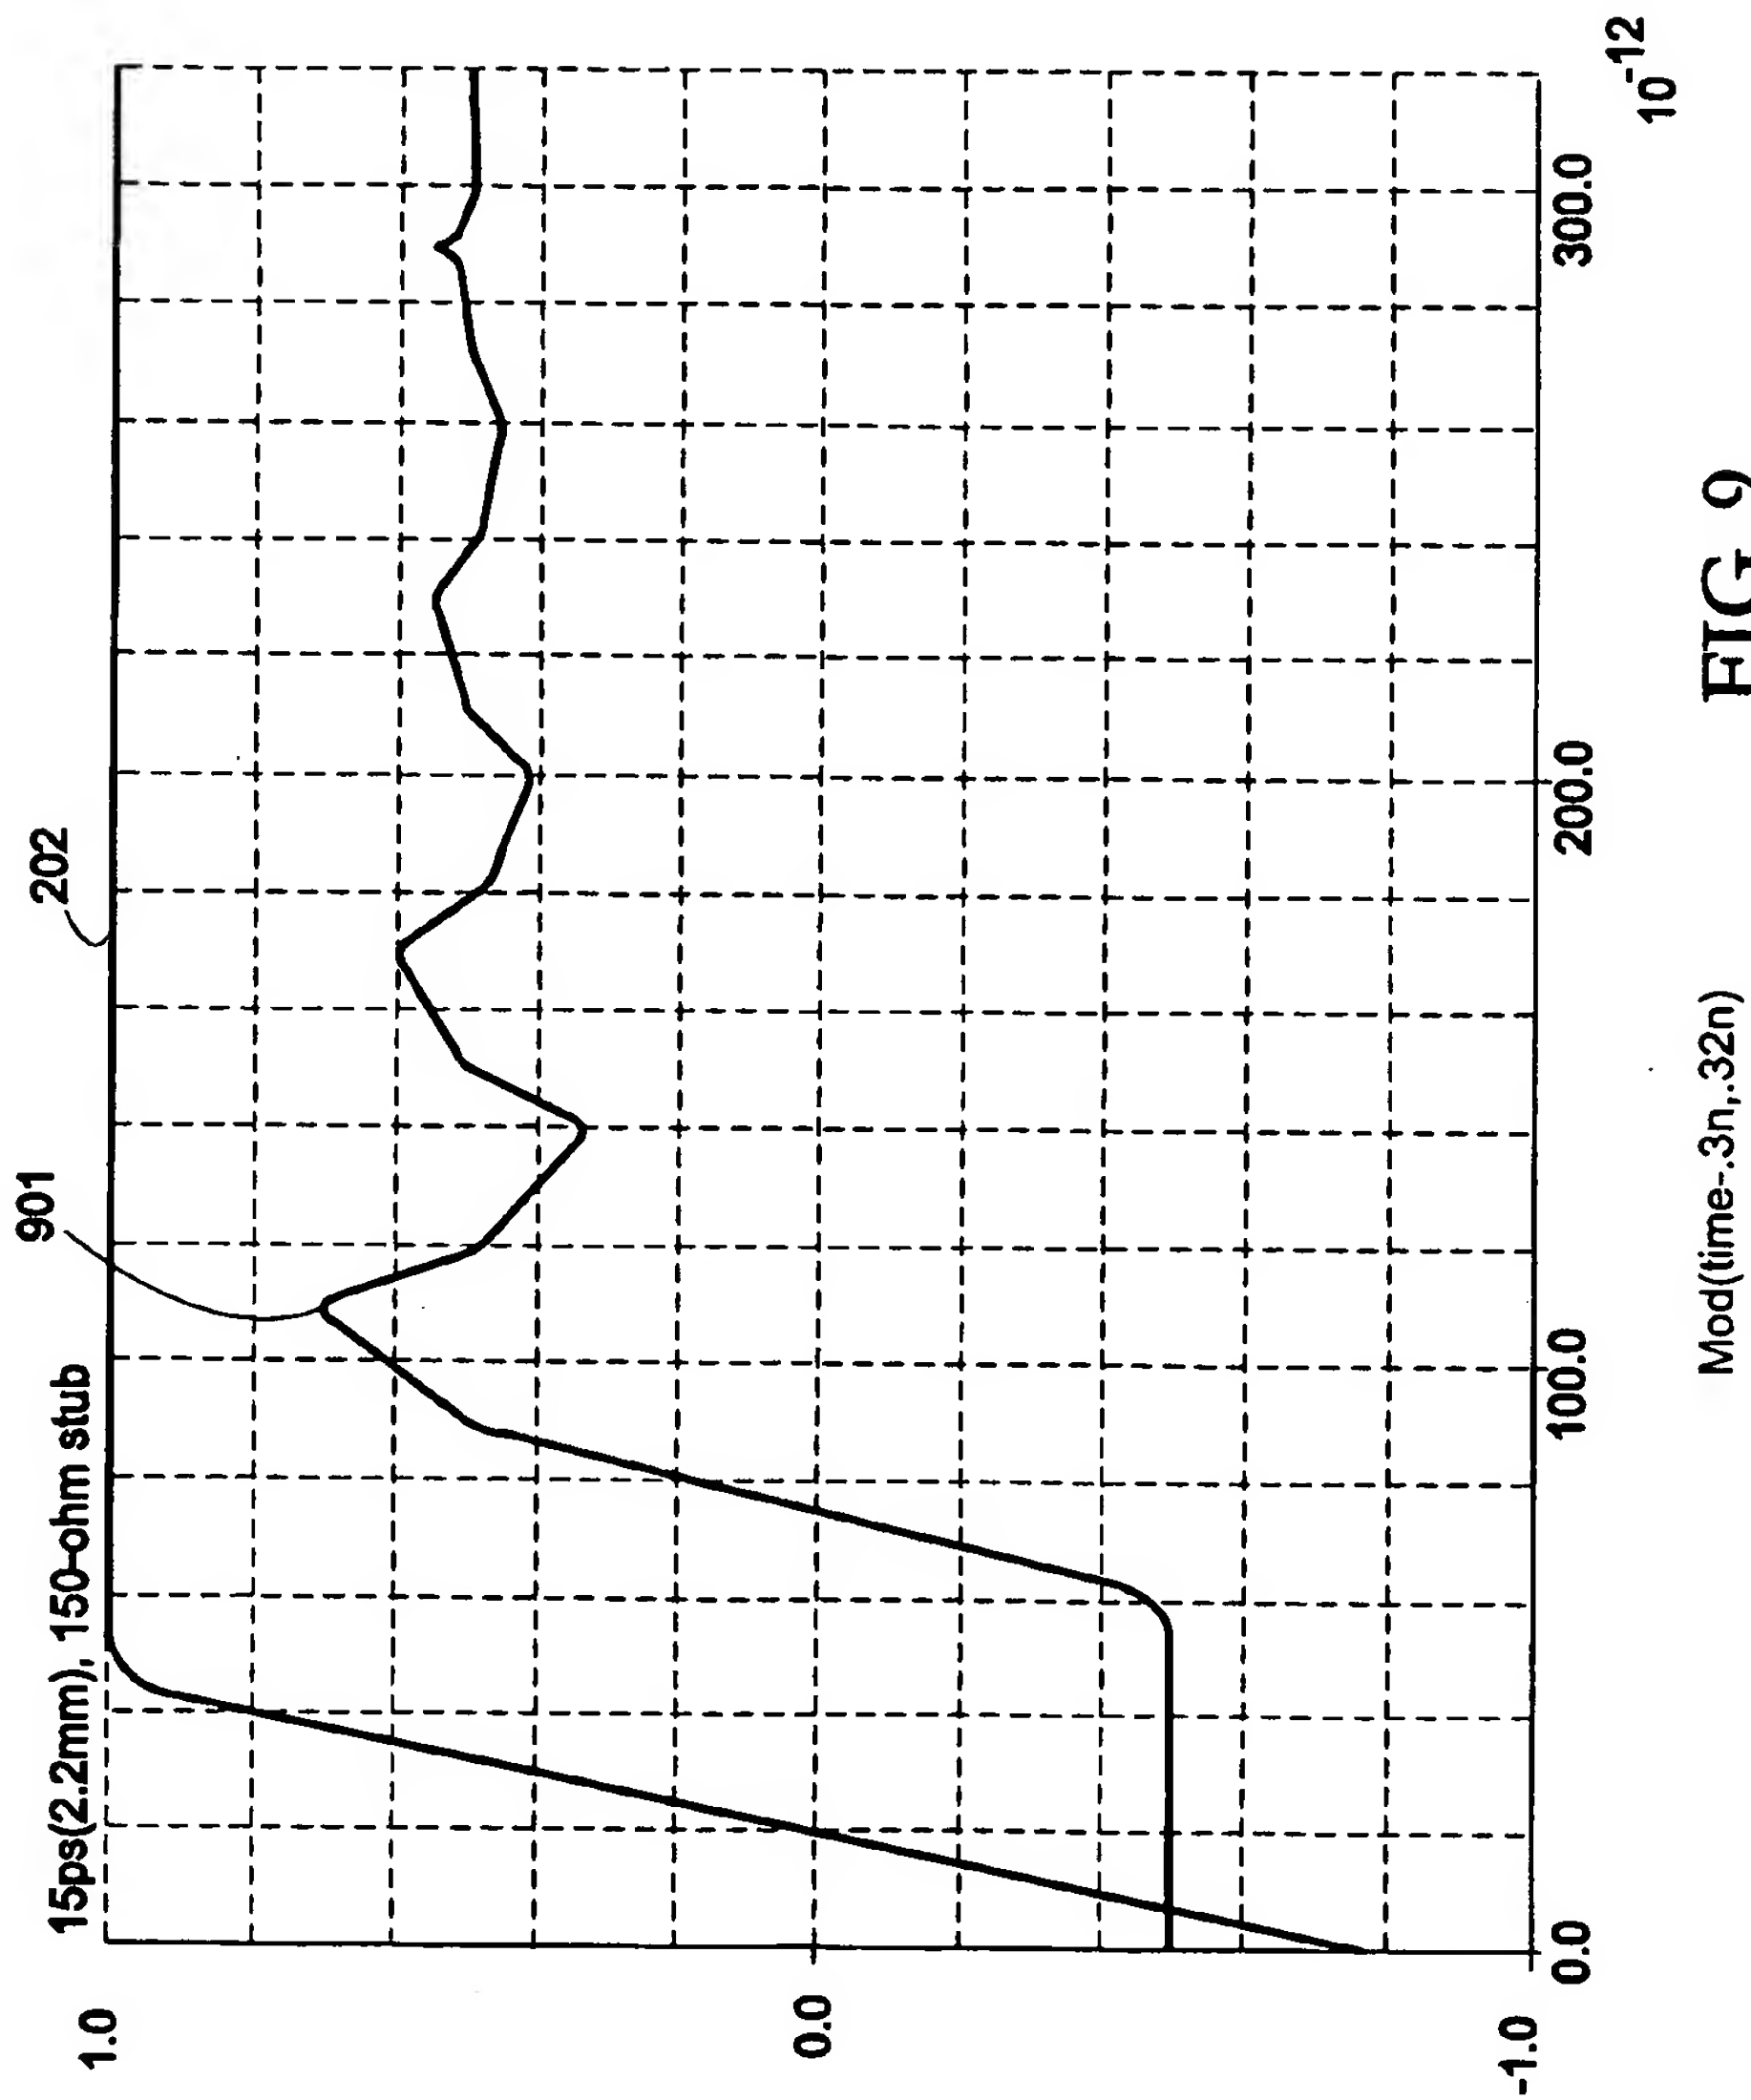

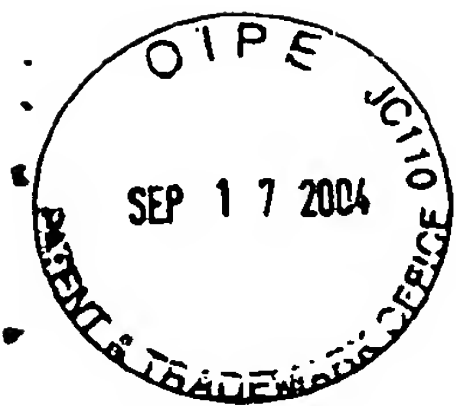

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

9 / 10

Agilent Technologies 10010982  
Apparatus For Routing Electrical Signals  
Inventor(s): William S Burton

Replacement Sheet

10 / 10

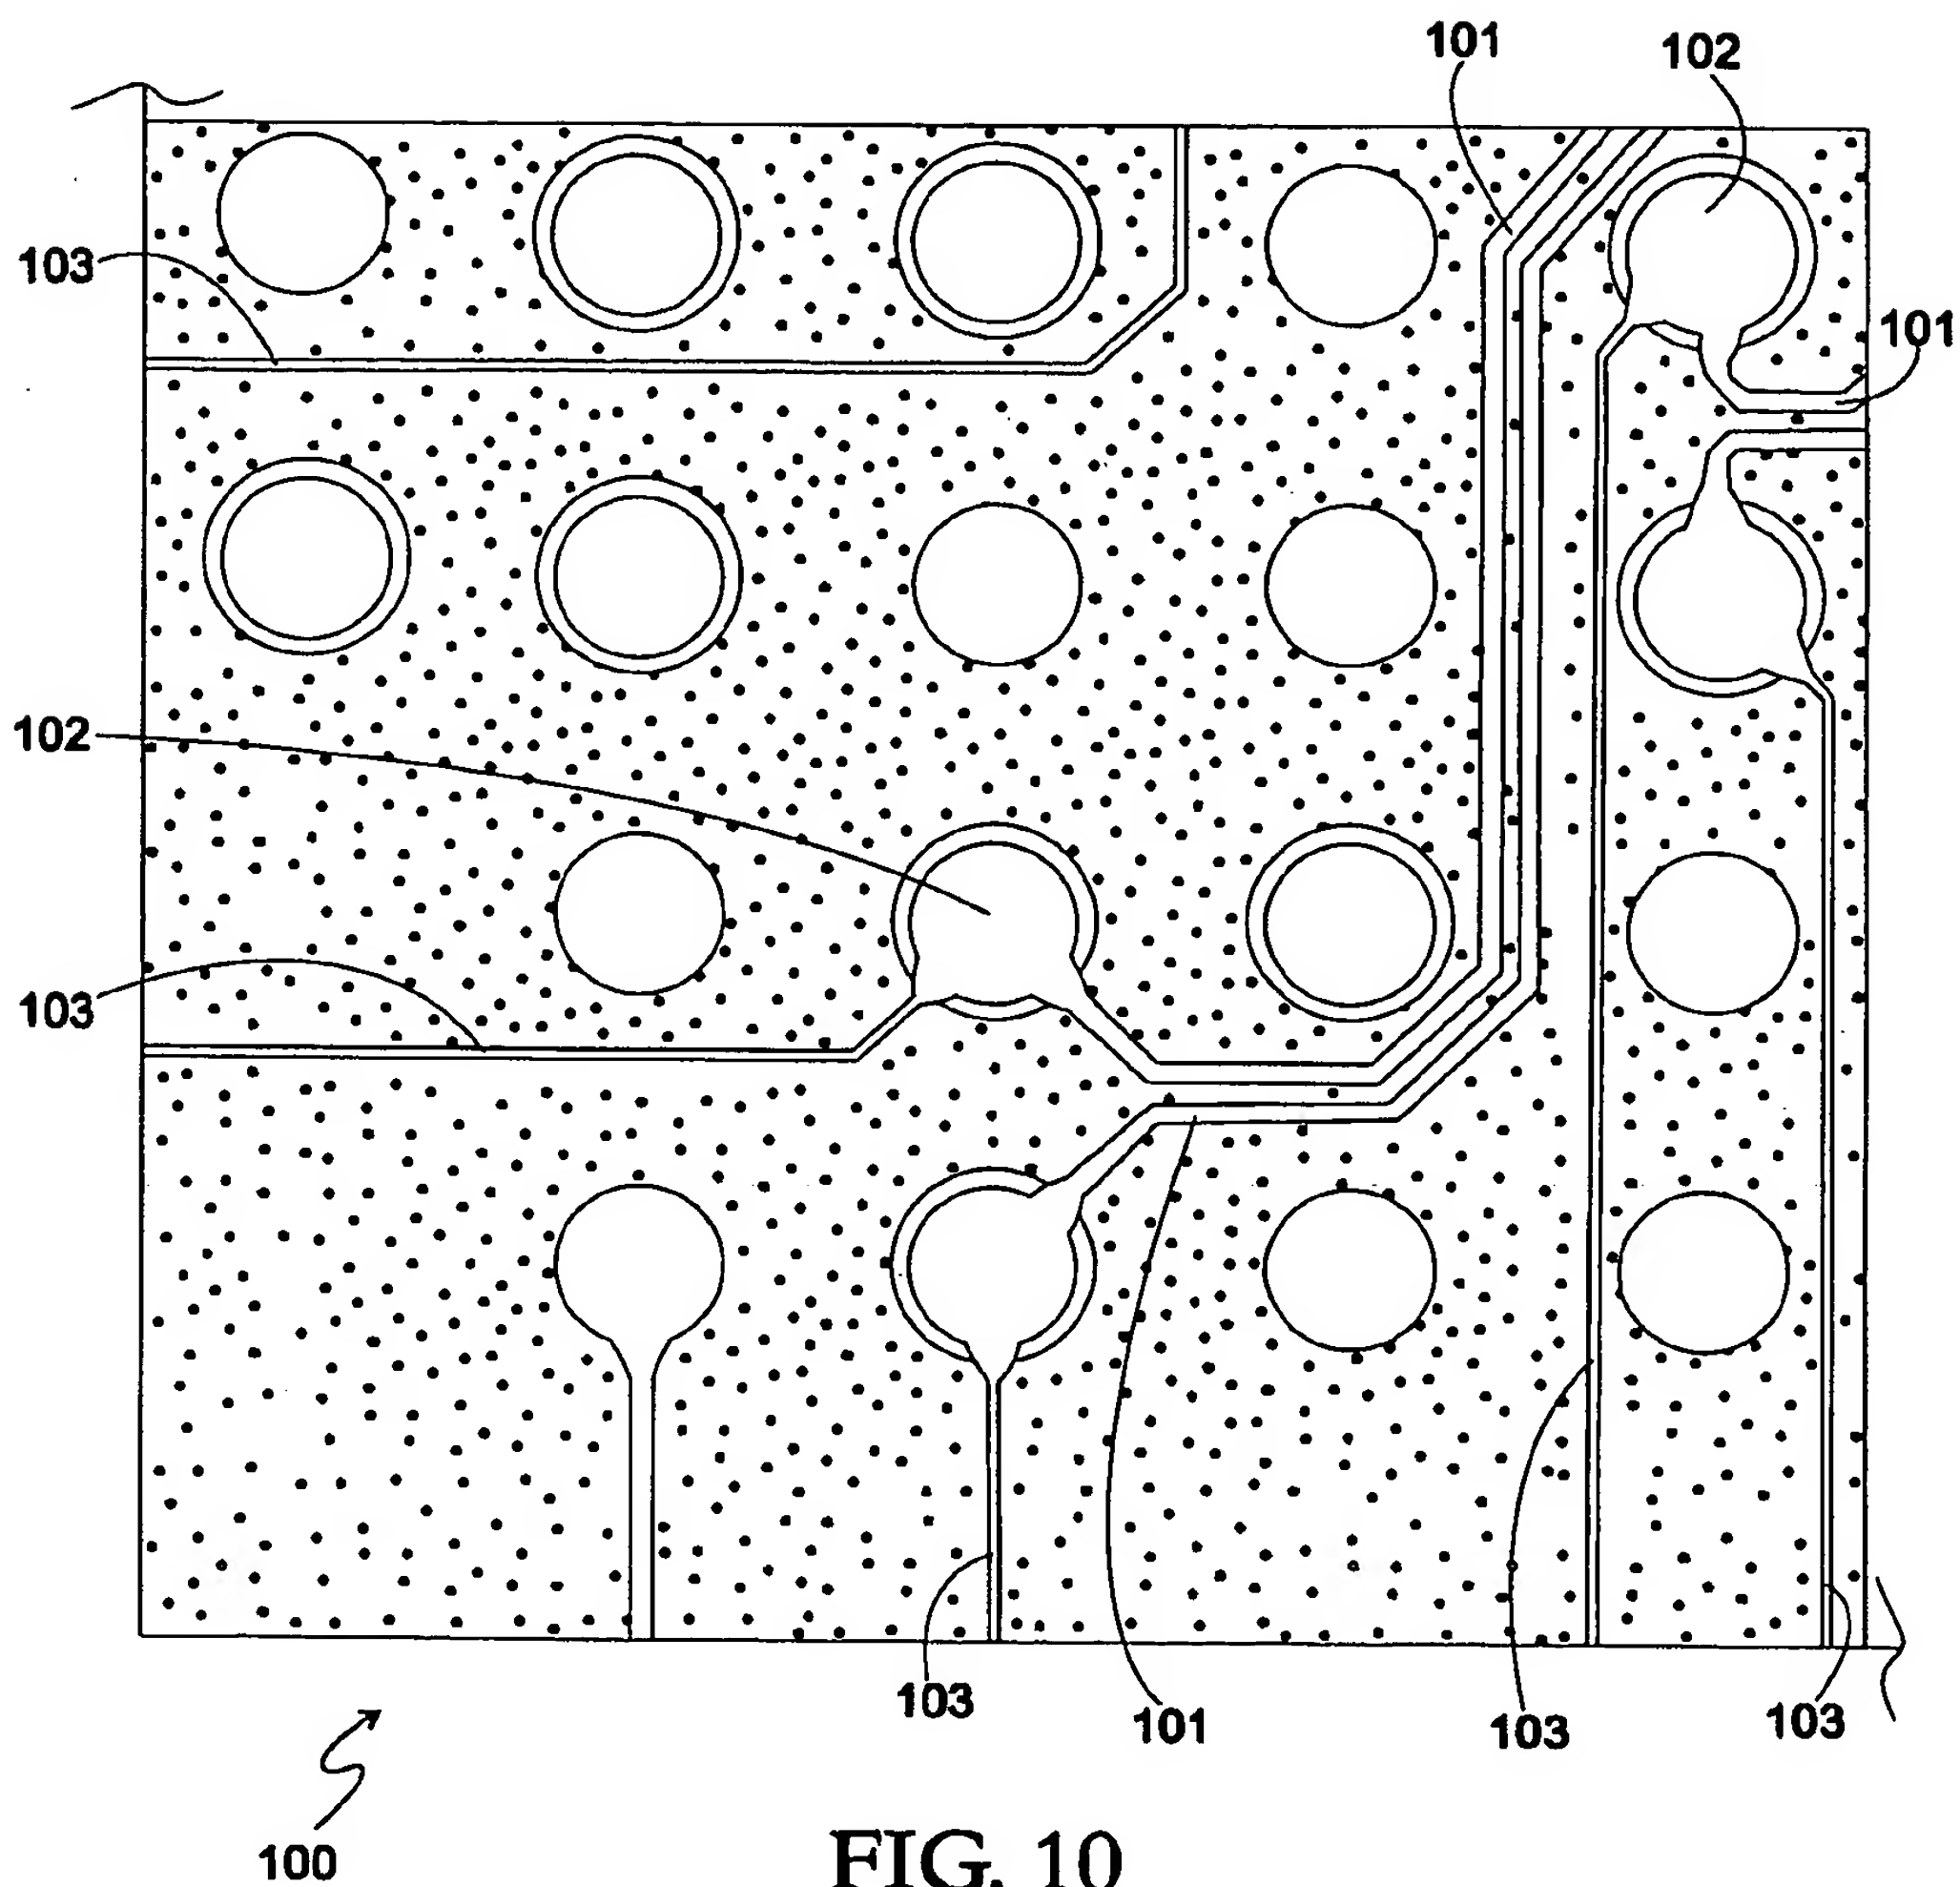

FIG. 10
